- Download User Manual
- Download MFS100 Client Service

Download MFS100 RD Service and Management Client (Android)

- Download User Manual
- Download Mantra RD Service
- Download Mantra Management Client

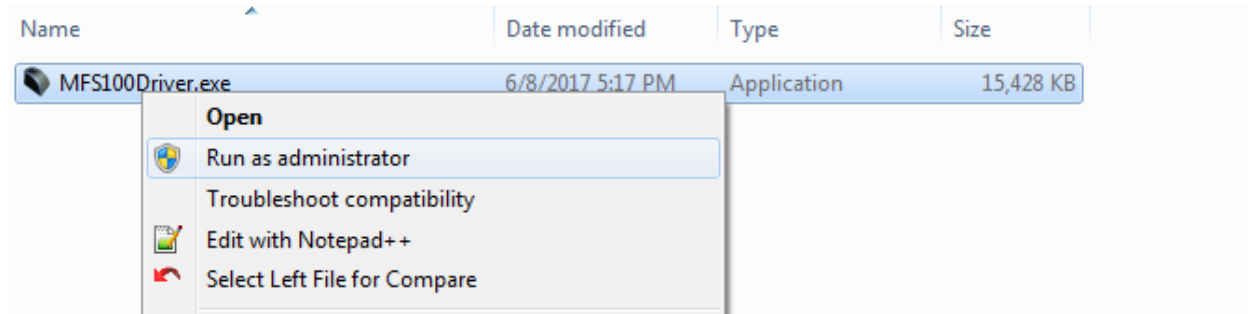

Install **Mantra RD Service & MFS100 Driver Setup**.

2. Mantra MFS100 Driver Setup Installation.

1. Start installation:

Right click on setup file and select “Run as administrator”.

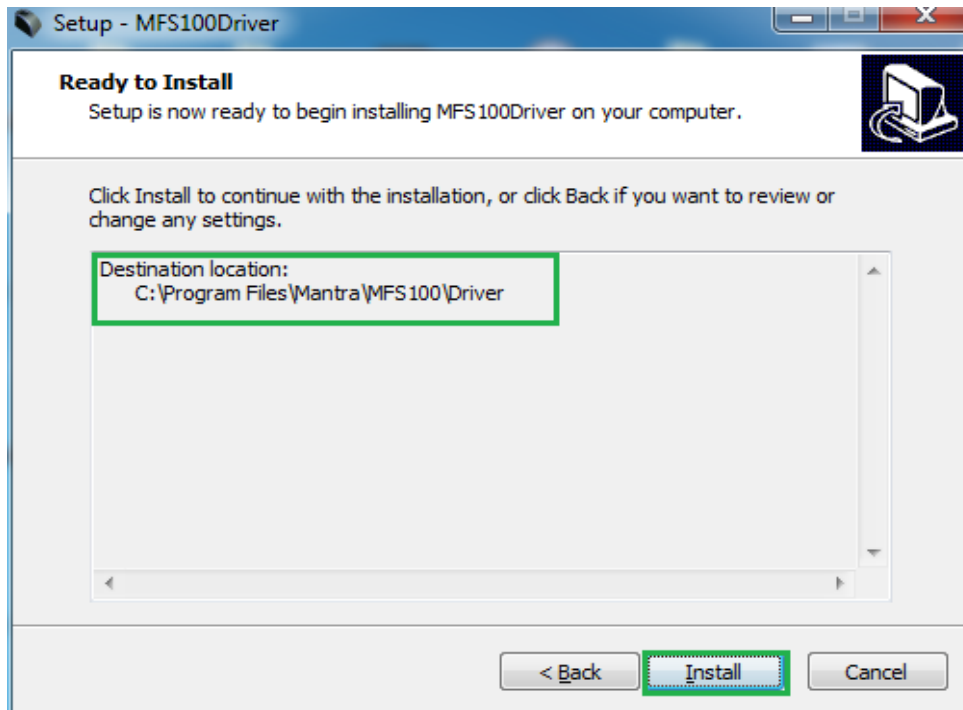

Note: To install MFS100 scanner drivers and necessary service, setup need to access system32 folder. In this case setup need administrator privileges.

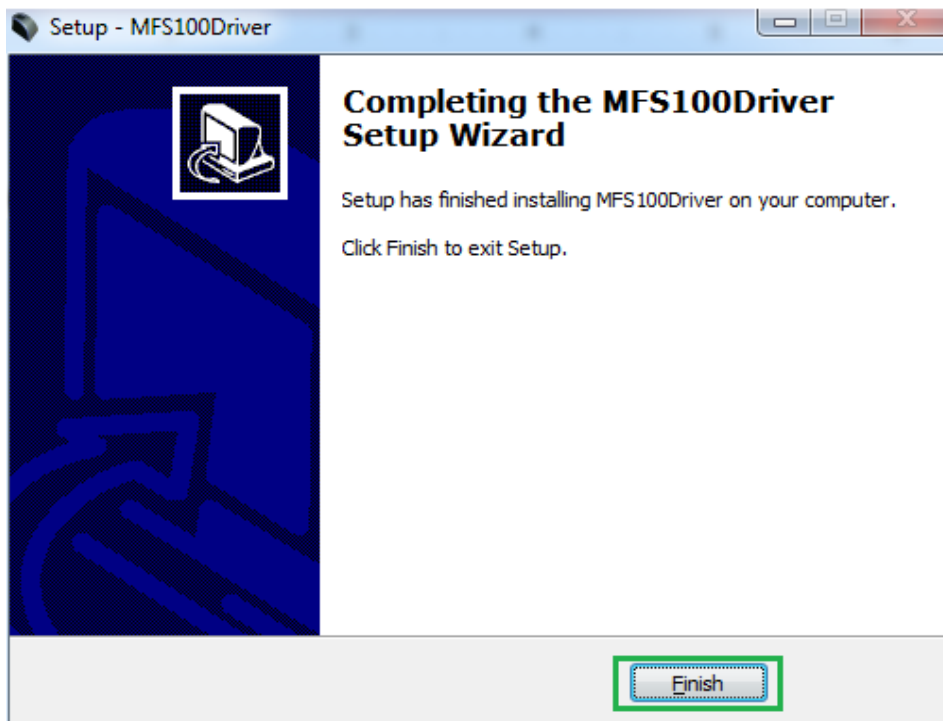

2. Welcome Wizard:

3. Destination Location

4. Finish Driver Installation

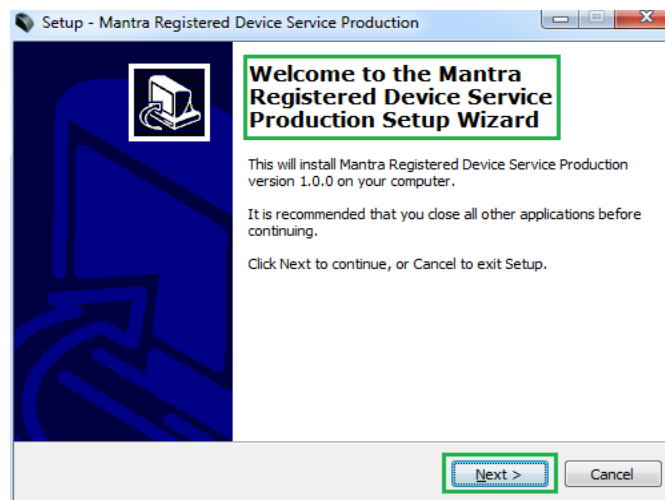

3. Mantra RD Service Installation.

1. Start installation:

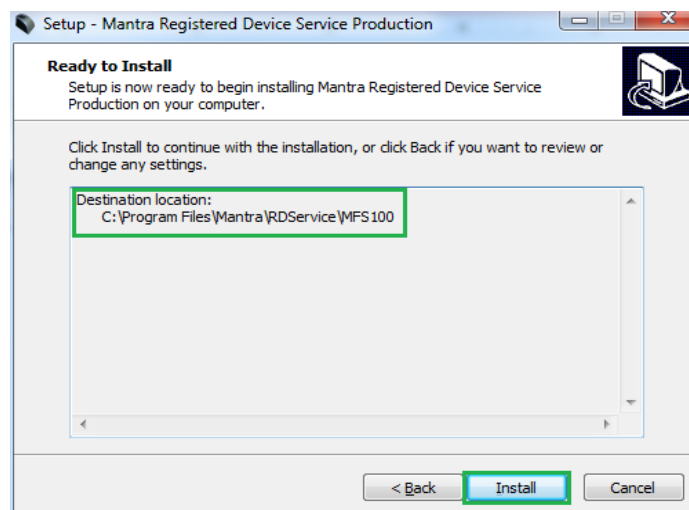

- Right click on setup file and select “Run as administrator”.
- **Note: To install Mantra RD Service, setup need administrator privileges.**

2. Welcome Wizard:

3. Destination Location:

4. Finish RD Service Installation:

- After installation of RD Service, it can be found under Services form “Control Panel\All Control Panel Items\Administrative Tools”.

5. Public to L0 Conversion (MFS100 Registered Device)

- When RD Service will detect public device then it will convert it into registered device and user will be notified again with success response by RD Service.
- After that you need to unplug and plug your device.

- If your device is not listed at Mantra Management Server than user will be notified with below message so in this case you need to contact with our Servico Team at <http://servico.mantratecapp.com> Or **+91-79-49068000**.

- Once registered MFS100 device will be plugged to the system, RD service will detect it automatically and validate it on Mantra's Management Server.
- Once validation completed then it will generate below popup for user information.

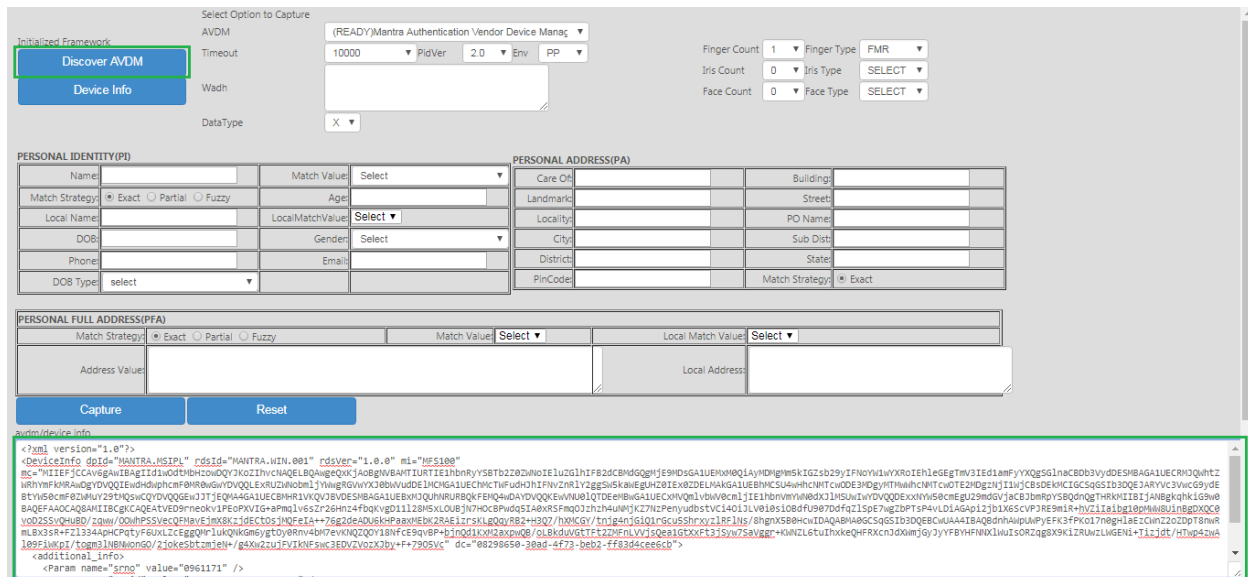

6. RD Service Test Application

- 1) HTTP : <http://rdtest.aadhaardevice.com/>
 - 2) HTTPS : <https://rdtest.aadhaardevice.com/> (Test https URL if your website is in https)
- By running RD Service Test application, user can detect all RD Services installed in their system.

- User can get Device Information which is connected to its system.

- By calling capture function of RD service, user can capture biometric data.

```

Capture      Reset

Mantra Management Server

- It is necessary that RD service installed in client machine must interact with Mantra’s Management Server.
- For that, client machine must access the domain <https://aadhaardevice.com> and it’s all sub-domains.

7. Proxy Setting

Proxy in Network (if proxy is required to connect internet)

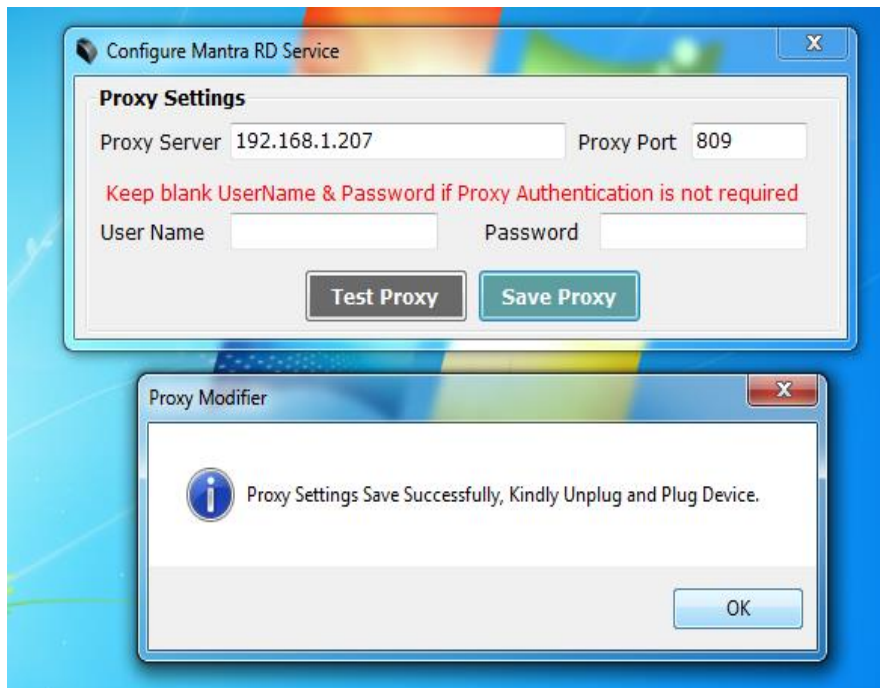

- After installation of RD Service (updated on 04-Dec-2017) below Application – **Config Mantra RDService** shortcut will be available on 'desktop' as well as in 'All Programs'.

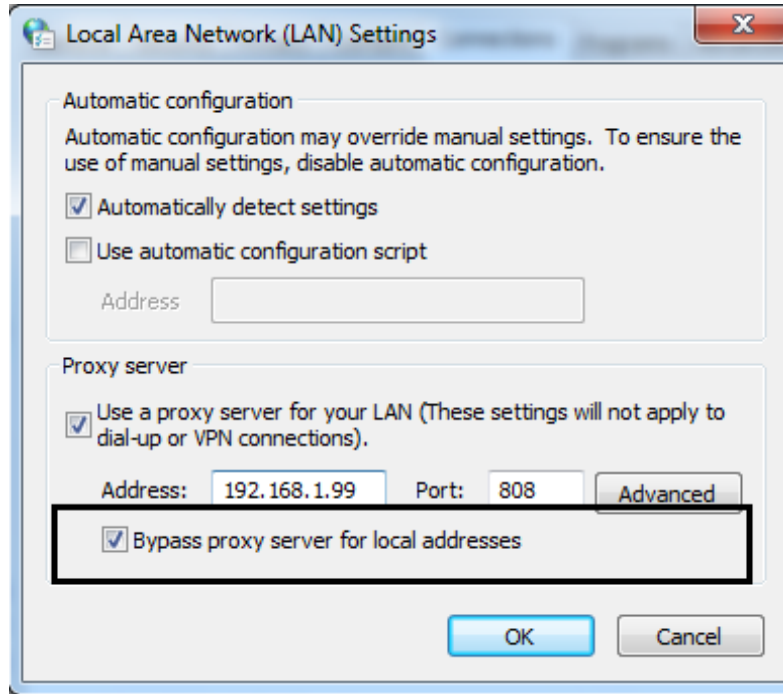

- Enter Username and Password if Proxy Authentication is required otherwise keep as Blank.

- On "OK" Message of Test Proxy, click on **Save Proxy**.

- You need to "**Unplug and Plug**" device so RD Service will take that proxy setting to communicate "Mantra Management Server".

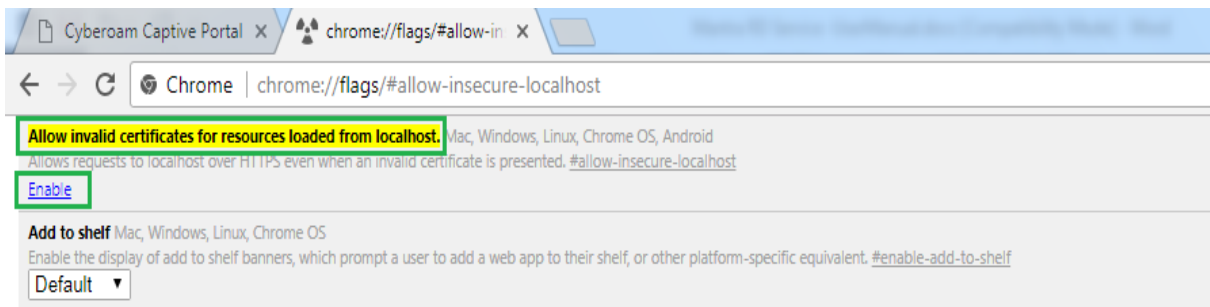

8. Browser Configuration for Web RD Test

1) Chrome

Open chrome browser and write below in url and click on Enable “Allow invalie certificates for resources loaded from localhost” and then click “RELAUNCH NOW”

chrome://flags/#allow-insecure-localhost

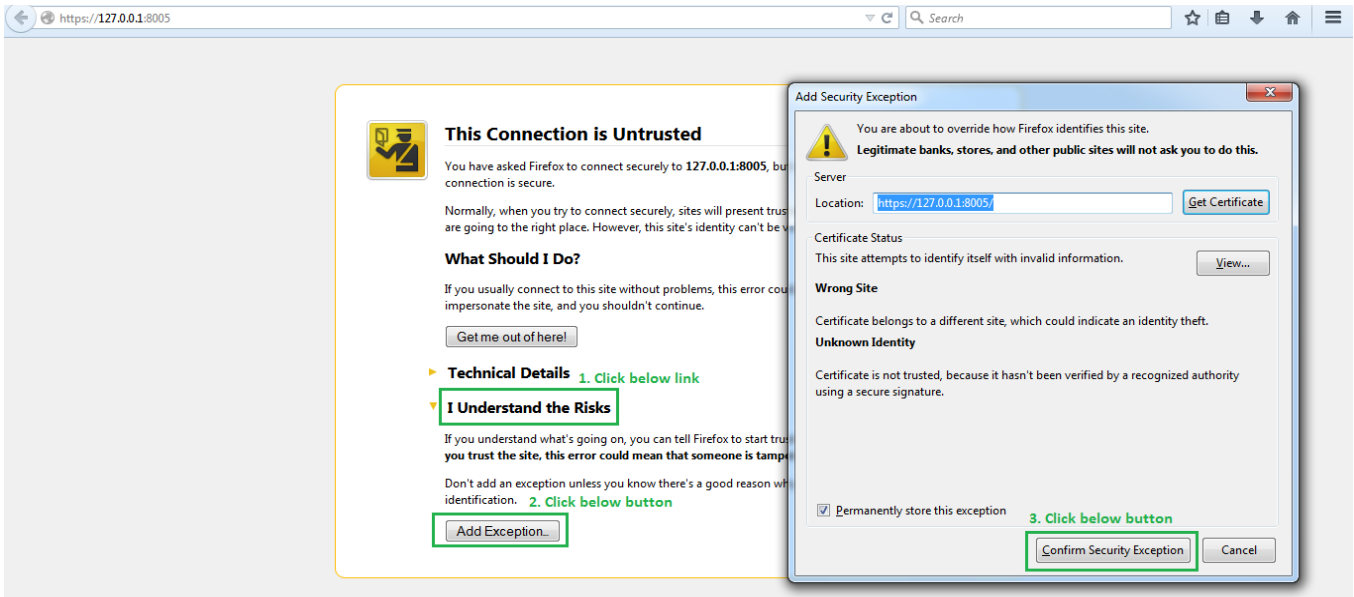

Your changes will take effect the next time you relaunch Google Chrome.

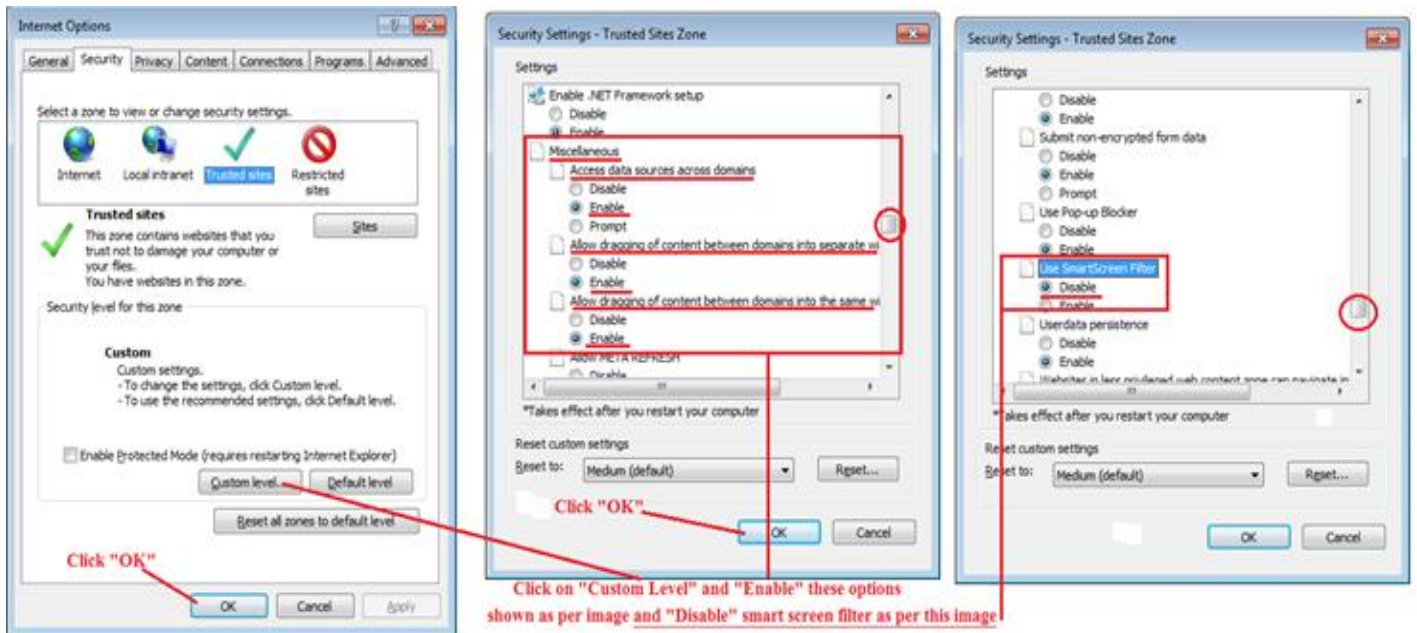

2) Firefox

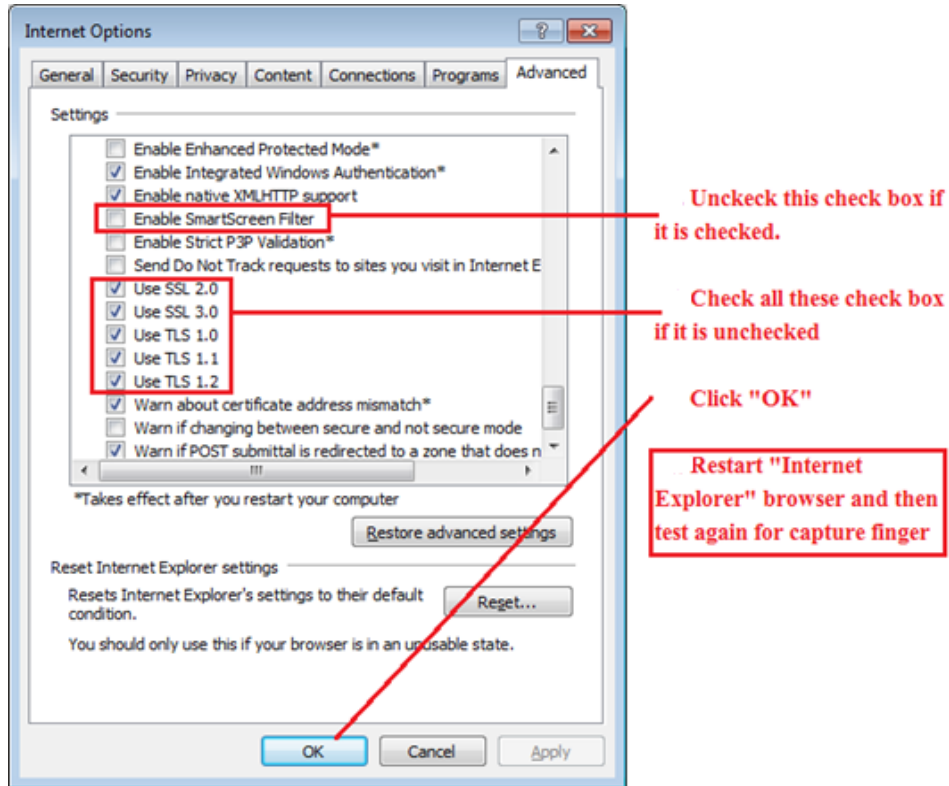

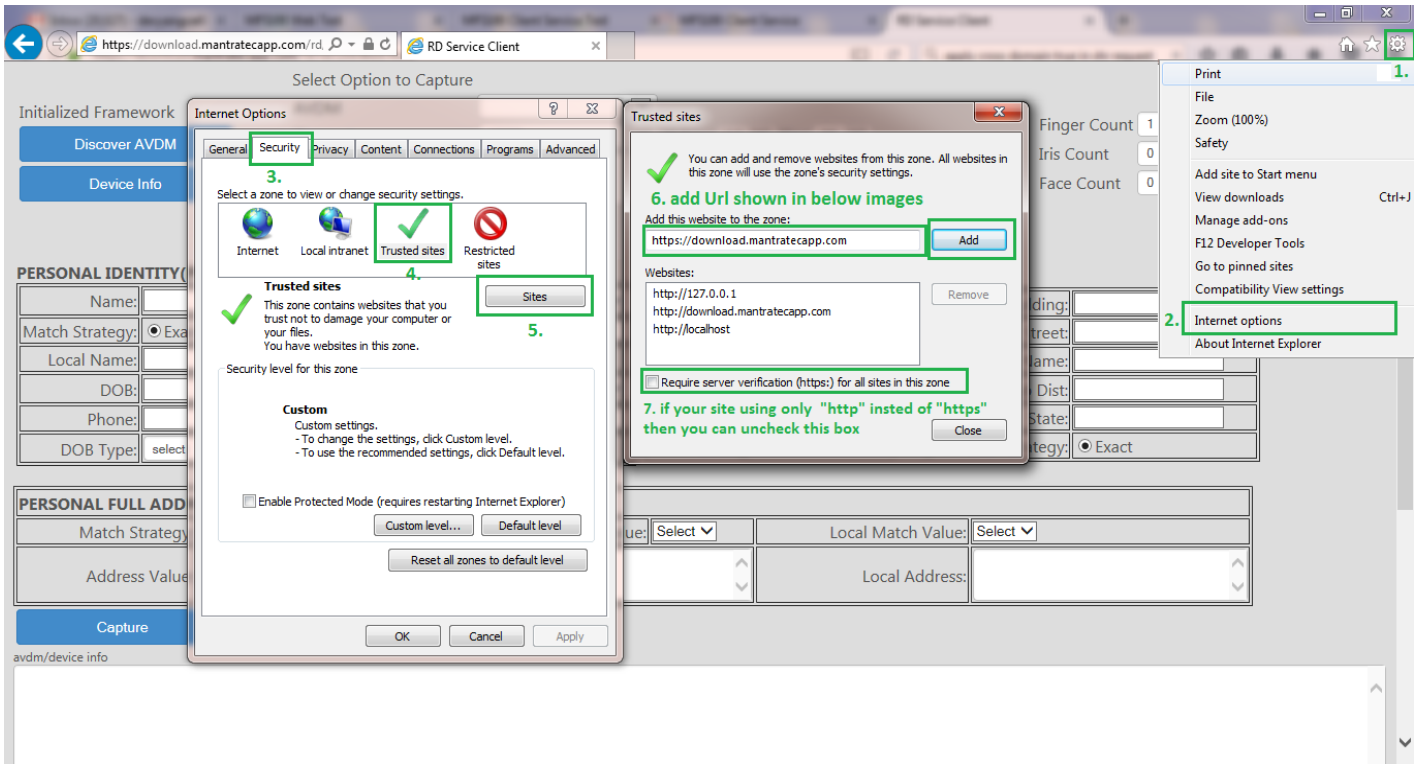

Open Firefox browser and write below in url and click on **“I Understand the Risks”** , click **“Add Exception”** , it will open Add Security Exception popup and then click **“Confirm Security Exception”**.

https://127.0.0.1:8005

3) Internet Explorer

Date Time and Time Zone

9. Device Registration on Management Server

To list device pre-production or production, send serial number of device to servico@mantratec.com

+91-79-49068000.

10. Technical Support

Mantra Support Team
